

Why

Leadership is a key factor for people who coordinate, manage and supervise a group of persons. These elements are specific to this issue: knowing oneself, mastering one's resources, managing time, communication, motivation and the ability to give feedback. JTC's leadership approach is arranged for: entrepreneurs, managers, sport and professional coaches and all people who intend to make their presence able to make the difference.

JTC School courses are designed for those who deem useful to:

- develop their relational resources;
- build their charisma;
- get the most from their team.

How

This method entails:

- learning the most effective techniques;
- developing one's personal resources;
- interacting with the teacher and other participants;
- analysis of high training value examples.

After

Thanks to training in this area, it will be possible to:

- make the difference with your presence;
- better and more easily manage your group;
- achieve objectives more effectively.

program:

Basic level

- communication' targets
- concepts and fundamentals about leadership
- how to recognize stereotypes
- group dynamics fundamentals
- one own resources development

Advanced level

- effective communication' targets
- one own leadership building based on one own resources
- how to handle the team in order to move from plans to reality
- one own carisma building and leadership maintenance
- exercise's debriefing and productive comparison

In order to personalize and maximize training' effects, all trainee will have an individual follow up meeting with the trainer within 15/30 days from the end of the program.

In order to maintain the high quality standards of the courses and the individual follow-up session, **the number of eligible participants is limited.**

Subscription's refunding is admitted if participant would not be completely satisfied by course. It has to be asked not later than first day part of training.

Following positive test result, **participant will get a Diploma.**

If you're interested in your career investment and social relationship improvement, contact us : segreteria@jtc-school.com

Through its founder, JTC school has been dealing with personal development for over 10 years.

Its main goal is to transfer an array of skills and stimulate the development of abilities essential to the improvement of personal characteristics in social relations.

Experience, skill, talent and a natural propensity to human relationships are the key elements for achieving excellent personal and professional results.

Together with leadership issues we care about: communication - public speaking - negotiation techniques and group dynamics.

The JTC School team is available to support the construction of a training program specific to individual needs. The possibility consists in aggregating programs and/or topics of different issues in order to create a path suitable to support personal and professional growth directed to specific personal needs.

The JTC School team is willing to organize courses for personal development, in the business field, working as a coach for high seniority professionals (Executives, Top Managers and Entrepreneurs).

A wide range of solutions designed for corporate HR development have been specifically engineered.

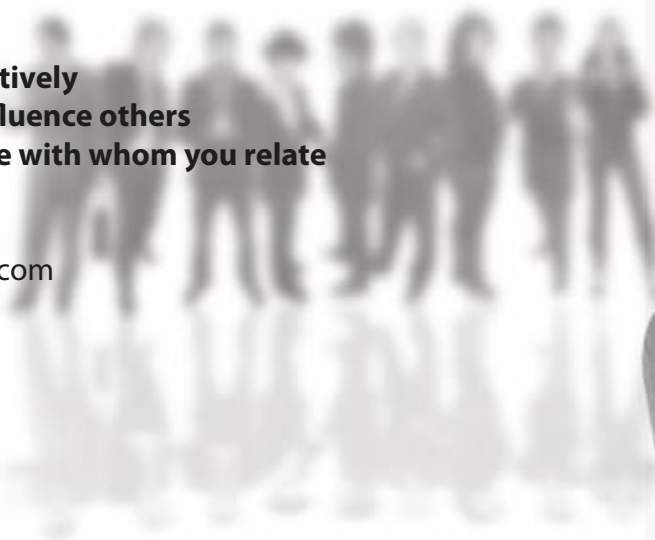

Each course was designed based on the extensive experience gained in heterogeneous contexts. A feature common to all issues is the strong experiential component, essential for proper learning and subsequent use on behalf of the admitted participants, each of which will receive an individual follow-up session aimed at transferring what was learned, in actual fact, to the specific personal and/or professional sphere.

if you want to:

communicate more effectively
increase the ability to influence others
get more from the people with whom you relate
obtain a radical change
